Re-opening at a new location

Black Forest Model Railway

At 400 m², the Black Forest Model Railway is the largest European model railway based on a real model: the famous Black Forest Railway, which has been running between Offenburg and Constance since 1873. Like the original, the model of the Black Forest Railway is a real masterpiece of track construction. Around 30 current and older train set series master a height difference of 1.80 m on 1300 m of H0 track, past summer festivals, flocks of sheep and hiking trails in the beautiful holiday region. And when it turns to night, thousands of lights shine and conjure up a sea of lights in the hall.

After moving from Hausach to Gutach, the Black Forest Model Railway has started operations in its new home.

You can find all the information connected to the Black Forest Model Railway at: www.schwarzwaldmodellbahn-gutach.de

Art and architecture

Swissness Applied

Under the motto »Swissness Applied«, the US architect's office »Architecture Office« dedicates itself to Swiss architecture and the preservation of Swiss cultural heritage abroad in numerous projects, often with the help of FALLER building kits. This can be seen in a seminar at the University of Houston starting in January 2022. It's exciting to see what the results will be. You can find more information at: [instagram.com/_architectureoffice](https://www.instagram.com/_architectureoffice)

Installation »Fabricating Swissness«, Seoul Biennale of Architecture and Urbanism 2021, South Korea. Photography: Hansol Bae.

Swissness Applied: Learning from New Glarus. 2021, Park Books, ISBN 978-3-03860-244-6. Book presentation: 3 March until 14 April 2022, Book Shop Never Stop Reading, Zurich, Switzerland.

Old acquaintances just popping by

In the »Old Acquaintances« range, you will find selected models which have been out of stock for several years as limited special edition items at an attractive price. The range will be expanded continually with new building kits for the H0 and N selections. Perhaps your favourite model will also be available shortly.

Live and interactive

FALLER INSIGHTS

In the FALLER INSIGHTS shows, we show you live current projects, new products and many practice tips on model making. FALLER employees report on new and exciting happenings from various departments and are happy to answer any questions from viewers.

We will announce the streaming dates for 2022 in good time at: youtube.com/c/faller.

Join in!

Excellent mix of theory and practice

FALLER Workshops

We show you how easy and diversified scale modelling can be.

During FALLER workshops at our headquarters in Gütenbach our experts will show you the best working techniques as well as all essential tricks and knacks when putting them into practice. Our workshops on the topics model layout construction, Car System, Car System Digital and conversion of Car System Digital vehicles are equally aimed at beginners and advanced hobbyists.

Epoch I • 233 x 185 x 183 mm • 05/22

110128

»Winterberg« Citizens' Station

»Futuristic, crystal-clear, colourful!« Modern multi-purpose railway station with arched roof based on the original model built in 2018 in the Sauerland winter sports resort of Winterberg. The roof construction is modelled on the local ski jump and spans several modules of the building ensemble. In addition to the floor-to-ceiling glazed station hall with DB sales counter, kiosk and toilets, the building houses a citizens' service office with a tourist service point, rooms of the adult education centre and the health and district youth welfare office, as well as a restaurant. In 2018, the station building received the »Station of the Year« award from the »Allianz pro Schiene« association for this »citizens' station« concept with its wide range of services, as being the most customer-friendly station.

Epoch VI - 510 x 195 x 155 mm - 05/22

120302

DB plus point

Maxi, Midi and Mini – All services for accommodation and travel in a small space. Promotional set for the platform area consisting of a red tower and a red gate, each with ticket vending machine, ticket punch, card phone, emergency phone and information pillar. Two information pavilions with timetable displays, plus two waiting pavilions with seating and rubbish bins complete the set. Side glazing in the pavilions provides protection from wind and weather.

Epoch IV • MAXI: 132 x 34 x 43 mm • MIDI: 34 x 23 x 43 mm, 34 x 17,5 x 32 mm, 21 x 15 x 31,5 mm • MINI: 11,5 x 9 x 43 mm, 34 x 17,5 x 32 mm, 21 x 3 x 31,5 mm • 02/22

110146

»Gomadingen« Station

On the Schwäbische Alb-Bahn railway line Type IIa railway station of the Royal Württemberg State Railways based on the original in Gomadingen near Reutlingen. The two-storey station building with ticket office and company flat is clad in wood and shingles. The facades of the attached waiting room and the goods shed have wood sidings. The privvy and wood rack are housed in a separate building.

Epoch I • Railway station: 248 x 105 x 135 mm • Toilet house: 112 x 80 x 58 mm • 04/22

151635

Waiting people

05/22

120287

1-stall roundhouse

1-storey roundhouse in half-timbered construction with light-coloured beams and yellow clinker infill. The roundhouse has room for locomotives up to 230 mm LoB.

Epoch II • 278 x 129 x 103 mm • 03/22

120295

Handling facility with drive parts

Final service on the steam locomotive. Handling facility with pit, inclined skip hoist and drive parts for the up and down movement of the slag truck. Servo, Art. 180726 and Servo control, Art. 180725 sold separately.

Epoch III • Patinated model • 171 x 100 x 151 mm • Depth: 47 mm • 03/22

130158

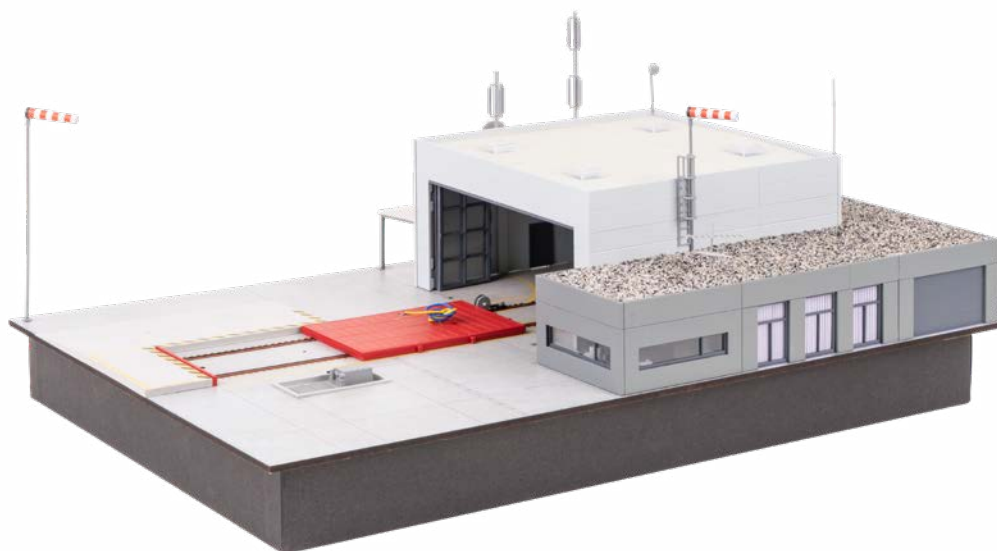

Air rescue station

Ready for action around the clock. Modern air rescue base for ambulance and rescue flights, consisting of a helicopter hangar for maintenance and mission preparation, office building with operations centre, utility and common rooms for the crew, plus a model EC 135 helicopter**. Accessories for the design of the rescue base, including a mobile platform, windsock, antennas and a fuelling station included.

Moving miniature worlds. The highlights of the model are various movement functions that mirror the sequence of operations: when the enclosed switch is pressed, the hangar doors open, the platform and helicopter move out, and the rotor blades of the helicopter start to turn. When the switch is pressed again, the rotor blades slow down and stop. The platform and helicopter can be moved back into the hangar and the doors closed. A warning light flashes if the doors and the platform are moving.

Drive parts, control unit, three motors and a switch are included in the kit. For connection to 5 V DC. Operates using the FALLER 50 VA 50-60 Hz »Transformer«, Art. 180641 or »USB 2.0 cable, type A plug on the open end, 2 m«, Art. 180731 for power supply via an existing USB port.

Epoch VI - Moveable model - incl. motor - 400 x 264 x 112 mm -
Depth: 27,5 mm - 07/22

130892

Industry hall under construction, »System building«

System building Production, forwarding or storage hall under construction. Two walls with gate and window recesses; the pillars and supporting structure have already been erected. Base plate enclosed.

Compatible and expandable with system elements of the FALLER Goldbeck series.

Epoch VI - 253 x 153 x 124 mm - 03/22

130893

Vehicle shelter, »System building«

System building. Two-storey, open vehicle shelter with two skylights and rear door.

Compatible and expandable with system elements of the FALLER Goldbeck series.

Epoch VI - 152 x 103 x 80 mm - 03/22

130138

Town corner house with tattoo parlour

Four-storey town corner house with red clinker brick facade on the upper floors, white windows and dormer windows. A tattoo parlour is located on the ground floor with a stone block facade.

Epoch III • 210 x 155 x 185 mm • 03/22

180852

2 Motorbikes

Epoch IV • 03/22

130167

»Hesselbach« Filling station

Fuel station in the small town. Harmonious model set consisting of two detached dwellings with stepped gables, a workshop with sliding gates and a fuel island. A canopy, a fence and an ARAL sign are included for decoration. Base plate included.

Epoch III • 240 x 237 x 137 mm • 03/22

130627

Town house with lawyer's office

Four-storey townhouse with stucco facade, a two-storey bay window at the rear of the building, dormer windows and roof railings. A lawyer's office is located on the ground floor. Individual windows of the model can be displayed open.

Epoch III • 145 x 145 x 201 mm • 03/22

130628

Town house with model-making shop

Three-storey dwelling with brick window surrounds, solar panels on the roof and a backyard drive-through. There is a model-making shop on the ground floor.

Epoch III • Patinated model • 136 x 125 x 174 mm • 05/22

130587

Half-timbered house with well

1-storey dwelling in half-timbered construction with grey beams and red infill. Two recessed roof balconies, two large dormers and the covered patio adorn the small building with stone base, whose entrance is reached via an external staircase. A fountain, a small obelisk and flower troughs are included for scene decoration.

Epoch I - 123 x 123 x 108 mm - 02/22

13

130823

Bishop's tower

Mediaeval. 3-storey, plastered stone building with elaborate facade painting and typical flight of steps to the entrance. Half-timbered elements and recessed balcony decorate the attic under a gable roof with various hips.

Epoch I - 115 x 77 x 218 mm - 06/22

130582

»Rahden« Horse-driven mill

Moving miniature worlds. Lasercut functional model of a historic horse mill from around 1860 with a square floor plan, half-timbered façade and round tile roof based on an original in the museum courtyard in Rahden-Kleinendorf, North Rhine-Westphalia. Drive parts for the motorisation of the whim system and the miller and horse as miniature figures are included to set the scene. Use the Synchronous hobby motor, Art. 180629, or the Geared motor, Art. 180722, to drive the model. No motor included.

See the original building at: www.museumshof-rahden.de

»Smart Effects LED« Starter Set

Smart light strip – now it's getting really colourful!

Complete set for animated colour lighting of funfair models, consisting of an LED light strip with controller and power pack.

- Flexible 0.5 m light strip fitted with 150 individually addressable RGB LEDs
- All light colours and colour temperatures available
- Intuitive control via smartphone app or using enclosed handheld device
- Many pre-programmed and changeable light images
- Colour selection, brightness, speed, effect length, running directions individually adjustable
- Music control through ambient sounds
- Simultaneous operation of two different light images possible
- Timer for time switches

The light strip is easy to bend, shape and cut to the desired length (every 16 mm). The sections are reusable.

A light strip can be extended up to a length of 2 m. »Smart Effects LED« Light strip extension, 150 LEDs/0.5 m, Art. 180796 sold separately.

Technical data:

- RGB LEDs, full colour, 24 bit
- Number of LEDs: 150
- Light strip dimensions: 500 x 4 x 1.2 mm
- Voltage: 5 V DC
- App support: iOS 10.0 / Android 4.4 or higher

Battery for RF remote control type CR2025, 3 V included.

500 x 4 x 1,2 mm - 08/22

CAR SYSTEM DIGITAL

DIGITAL VEHICLE AND TRAFFIC CONTROL

28

Pure driving pleasure!

Autonomous driving on your model layout

- Fully automatic traffic control incl. distance monitoring
- High number of digital vehicles with realistic starting and braking characteristics
- Vehicle tracking via ultrasound and traffic control by radio
- Real-time control of vehicle functions possible
- Integrated set-up and control of light signals
- System/road construction reduced to guide wire and junctions
- Minimal cabling thanks to LocoNet and radio communication

161366

Car System Digital Loudspeaker

System sound! Loudspeaker for retrofitting conversion vehicles in conjunction with »Analog-Digital Conversion Kit«, Art. 163701.

04/22

161434

VW Crafter »Fire Rescue« (HERPA)

VW Crafter panel-van as a lead van model for fire brigade rescue operations. Without flashing electronics.

Epoch V - 04/22

161436

Lorry MB SK »Biodiesel« (HERPA)

»Heavy-duty« Mercedes Benz. Model year of the original: 1994. The SK series was produced between 1989 and 1998 and was then replaced by the Actros. The model is printed with a biodiesel motif.

Epoch V - 05/22

161435

MB Sprinter (HERPA)

Epoch V - 04/22

Vehicle's Technical Details

- Powerful, wear-resistant motor
- Solid rubber tires
- Vehicle comes with integrated battery
- Multiple hours of run-time per battery charge
- Integrated charging jack
- Use chargers (Art. 161349 or Art. 161690)

Please note:

- Only use original FALLER products for constructing roads to ensure safe operation
- Detailed vehicle manual

You can purchase spare parts at speciality retailers or directly from FALLER. For further information see: faller.de

161451

Car System Start-Set »Road Construction«

Starter set for the construction of car system roads.

Contents:

- Special contact wire, 5 m
- Road paint, 90 ml, Color like Art. 180506
- Road filler, 250 g
- Crash barriers
- Boundary posts
- Road markings as driving symbols
- Detailed road construction instructions

03/22

181286

14 round and 18 square-cut bales of hay

For grassland regions. Agricultural promotional set with numerous round bales and stackable square bales.

05/22

181287

22 Reeds

Water landscapes. 22 reed plants with leaves and flowers for realistic planting on garden ponds, lakes and marshes.

Height: ca. 19 mm • 05/22

181288

20 Leek plants

Fresh vegetables from the bed. 20 leek plants, easy to place with a small hole for the pole and a drop of glue.

Height: ca. 12 mm • 05/22

181619

Clump foliage, mid green
ca. 300 x 200 mm • 05/22

181620

Clump foliage, pasture green
ca. 300 x 200 mm • 05/22

Realistic leaves on a scarcely visible base material allowing the arrangement of bushes and cover plants, the grassing of walls and facades as well as the covering of transitions in terrain construction. Easy processing thanks to the extensibility and malleability of the filigree fleece.

Recommendation for processing:
cut or tear the foliage in smaller pieces. Fastening with quick-drying glue, e.g. FALLER Colofix or Colofix-Color.

180111

LED Wall lamps, hexagonal lamp with decorative crown, 3 pcs.

Create atmosphere with timeless design. Set of 3 wall lamps in detailed design, single flame, with hexagonal lamp head. The lamp is easy to install on buildings or walls and really sets the scene. The lantern is ideal for the atmospheric illumination of old towns, historic scenery and parks. The model is made of filigree plastic and illuminated by long-lasting LEDs. Ready for connection to 12 V direct current (DC). Operates using the FALLER 50 VA 50-60 Hz Transformer, Art. 180641.

Height: 32 mm • Light colour: warm white • 04/22

180112 3 pcs.
180212 1 pc.

LED Park light, hexagonal lamp with decorative crown

Height: 65 mm • Light colour: warm white • 04/22

272128 3 pcs.
272228 1 pc.

LED Park light, hexagonal lamp with decorative crown

Height: 55 mm • Light colour: warm white • 04/22

BUILDING MODEL-MAKING WITH IDEAS.

Are you starting out in model-making and want to add a touch of colour? Or have you ever rebuilt, improved or finessed a standard model made of plastic, lasercut or cardboard?

You can create building models according to your own ideas easily and in high quality using a 3D printing process.

With the FALLER CREATE online tool, you can design and construct the model you want, then have FALLER produce it for you.

Jan-Eric Schacht's water castle won first place in a competition for the most beautiful 3D printed models.

BUILD MORE FREELY WITH MORE OPTIONS

The new FALLER CREATE is here!

We are very excited to be able to present you with the new FALLER CREATE! Over the last few months, we have given it our all so as to implement the most highly requested functions and thus bring FALLER CREATE to a new level. faller-create.de

Construct individually

With FALLER CREATE, you can easily design and edit your desired H0, TT, N or POLA G model in a Web browser. Shell constructions, roofs, facades and all building elements can be adjusted with just a few clicks of the mouse. Simply try out your ideas and form your individual creation.

3D printing at your scale of choice

Your modelled design will be executed with all details in the modern 3D printing process, depending on the scale you have chosen, either in 1:87 (H0), 1:120 (TT), 1:160 (N) or 1:22.5 (POLA G). The body of the building, the roof and selected fixtures and fittings are sent to your postal address so that you can have your individual 3D model in your hands within a few days.

Perfect finishing

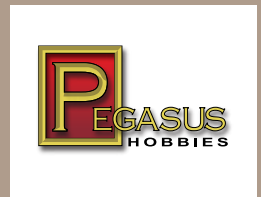

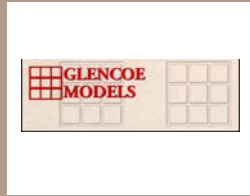

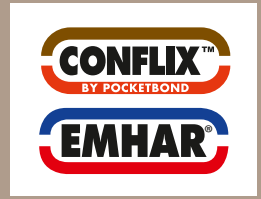

Your FALLER CREATE models can easily be worked on afterwards, laminated or painted. The materials of the individual parts can be fixed with all common plastic adhesives and individually designed with suitable model colours. The white base colour of your model guarantees perfect results in terms of colour.

Explanation and construction videos

Our YouTube channel with various explanatory videos is a good place to start. In the construction videos, you can see the software used when constructing building models. In addition, you will also get inspiration for your own model.

FALLER brands

You can get extensive catalogues and detailed brochures at a model construction store near you and via: faller.de
